

Quick and Easy Communication ...With Pagers

Numeric Pagers

Receive numeric messages from telephone callers or from our Website.

AlphaNumeric Pagers

Receive numeric messages from telephone callers, text from Email, or text from our Website.

Voice Pagers

Receive voice messages from telephone callers.

Pager Options

- **Voicemail:** Includes a Victoria area phone number with user-recordable greeting message and voice message storage. Sends an immediate alert to the pager.
- **Group extend:** A phone number that delivers messages to a group of up to 16 pagers.
- **1-888 number:** Toll-free calls to your pager.

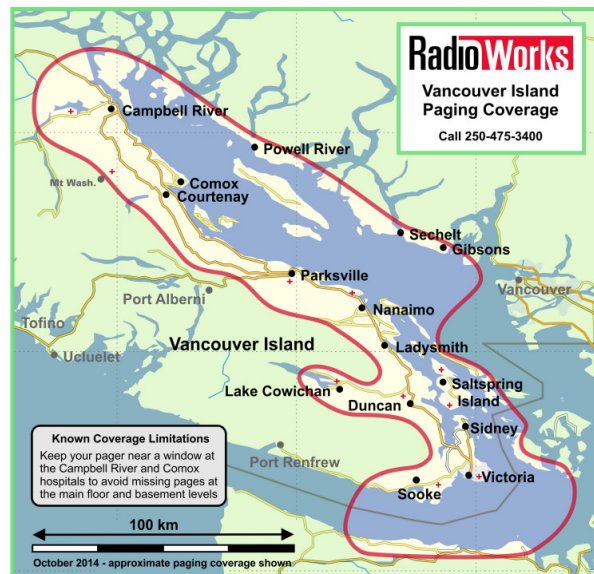

It's the 21st Century, Why Pagers?

- Pagers are inexpensive, durable and easy to use.
- Pager phone numbers are never busy.
- One disposable AA battery lasts all month.
- Use pagers to screen nuisance phone calls.
- Damaged pagers can be replaced over-the-counter in about 10 minutes.
- Carry a pager in case your cell phone fails.
- Pagers cost far less than cell phones.
- Pagers cost as little as \$25 to replace if lost.
- Pagers have a distinctive alert tone that you are unlikely to miss compared to cell phones.

Call RadioWorks at 250-475-3400

Can't Afford to Miss Important Calls?

- **Cell phones can miss calls** when the ringer is inadvertently **muted**, the **battery goes flat**, or the **phone is misplaced**. Avoid these situations by carrying a pager so you can still be contacted.

Your cellular phone service may stop working during a disaster or a public emergency due to high call volumes from the general public. Our paging services are far less likely to suffer from caller overloads.
